EDUCATION

Bachelor of Business Administration, IIT Patna

Aug 2024 – July 2027 (expected)

- CGPA: 7.28/10 (1st sem: 6.15, 2nd sem: 8.40 – strong upward trend)
- Relevant Coursework: Financial Accounting, Business Economics, Mathematics

EXPERIENCE

Capital Markets Trading Intern – PipRaisers

Oct 2025 – Present

- Learning equity and derivatives trading across Indian and global markets
- Developing skills in central bank analysis, market sentiment reading, risk management, and portfolio handling

Independent FX Trader (Paper Trading via TradingView)

Sept 2025 – Present

- Achieved ~80% ROI on a \$100K simulated FX account (EUR/USD) using 50:1 leverage
- Maintained detailed trade logs with risk-reward tracking and macro-driven strategy development

PROJECTS

Indian Stock Market Paper Trading Simulator (Solo Project)

Apr–Jul 2025

- Built a live-market paper trading simulator using delayed data due to NSE's data access limitations
- Implemented order execution, P&L tracking, and visual trade logs

Personal Portfolio Management System (GUI)

Jun–Aug 2025

- Developed a GUI tool for offline portfolio analysis and tracking returns, drawdowns, and risk metrics
- Integrated basic visualizations and manual trade input for offline use

CONSULTING PREPARATION

Management Consulting Specialization – Emory University (Coursera)

In Progress – Expected Nov 2025

- Completed 5-course series on management consulting fundamentals: problem-solving, data analysis, client communication
- Practiced case-based assignments using Lean Six Sigma (DMAIC), benchmarking, and hypothesis-driven thinking
- Built storytelling and presentation skills through Pyramid Principle and proposal writing exercises
- Gained hands-on experience with industry research, Excel modeling, and structured problem disaggregation

Self-Study: Consulting Case Prep

- Currently reading:
 - *Case in Point* by Marc Cosentino
 - *Case Interview Secrets* by Victor Cheng
- Practicing case structuring (MECE), issue trees, and hypothesis-driven frameworks
